This Soil Testing Campaign offers homeowners and gardeners the opportunity to have their soil tested to determine its current fertility and receive a recommendation to improve the fertility required to maintain and produce the best possible outcome for their garden, lawn, or landscape. This campaign is only intended for soil analysis on non-agricultural land; only samples from lawns, landscapes, and gardens will be accepted.

The members of Texas A&M AgriLife will provide equal opportunities in programs and activities, education, and employment to all persons regardless of race, color, sex, religion, national origin, age, disability, genetic information, veteran status, sexual orientation, or gender identity and will strive to achieve full and equal employment opportunity throughout Texas A&M AgriLife. The Texas A&M University System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating.
