Per the State Validation Office: This increase in cost is due to two factors we are facing this year. 1) In an effort to be in compliance with Texas Animal Health Commission, we are switching our previous EID frequency tags to 840 frequency EID tags. This will allow our state validated livestock to move in compliance with TAHC across state lines and be in compliance when issues a Certificate of Veterinary Inspection (health papers). This is a move in a positive direction, but does come at an increased cost. 2) Costs and fees have increased across the board, as well as expanding the services of the validation program to additional shows. That said, we must compensate accordingly to continue to provide educators, exhibitors, and their families the continued support, education, and consistency we have established. Please keep in mind the validation fee is not ONLY for the cost of the tag, but the entire validation SYSTEM that includes personnel, travel to livestock shows, a robust online database/maintenance, and our validation compliance team that helps ensure our rules and guidelines are enforced to ensure a fair and level playing field for Texas livestock exhibitors.
